DomQuartier Salzburg

The tour takes visitors on a voyage of discovery, in the footsteps of the Salzburg prince-archbishops at a time when Salzburg was a sovereign ecclesiastical principality.

You will see magnificently furnished state-rooms, valuable paintings from the Residenzgalerie collection, interesting special exhibitions in the North Oratory of the Cathedral and ecclesiastical treasures in the Cathedral Museum. Enjoy the fantastic view over the Residenzplatz and the Domplatz from the terrace above the archway, and from the organ loft into the Cathedral. You will walk through the Cabinet of Curiosities and the Long Gallery in St. Peter's Abbey, with its amazing construction history. In the Wallistrakt, selected treasures from the Benedictine Abbey's extensive art collection are on display in St. Peter's Museum. By way of the Kaisersaal and the Carabinierisaal, you return to the starting-point, and to the period of Prince-Archbishop Wolf Dietrich who, over 400 years ago, set about transforming Salzburg into a baroque gem.

The state-rooms and the Cathedral precinct provide the DomQuartier with superlative original venues for musical performance. Mozart once served as a musician at the court here, performing and composing music for performance in these very rooms. Thus in the DomQuartier you may be closer to Mozart than almost anywhere else in Salzburg.
